AltusWorks is a technically oriented architecture firm specializing in evaluating, restoring and rehabilitating existing and historic structures. Our areas of expertise include facility assessment; renovation and adaptive reuse; and building envelope assessment and repair. Clients consistently recognize us for being systematic, thoughtful, solution-driven and exceptionally collaborative.

**Expertise:** Building Envelope Assessment and Repair  
**Project:** Graduate School of Business, University of Chicago  
**Role:** AltusWorks was selected to examine the structural foundation system for integrity against water infiltration, provide a technical analysis of the built condition and recommend repair solutions to extend the system's life span. Work performed in association with Carnow, Conibear & Associates

**Expertise:** Renovation Management  
**Project:** Owner's Representative, Chicago Public Schools  
**Role:** After providing facility assessment services, AltusWorks advanced to manage a wide variety of facility renovation work including complex masonry renovation, infrastructure upgrades, and structural reinforcement and reroofing for a Dever era school. Work performed in association with Tishman Construction Company.

**Expertise:** Comprehensive Facility Assessment  
**Project:** System-Wide Facility Assessment Program, Chicago Public Schools  
**Role:** CPS and their program manager, Chicago School Associates, selected AltusWorks to develop, implement and manage a citywide assessment program for over 600 CPS facilities. We were chosen for our strong management skills and expertise in existing and historic structures.
